May 19, 2023

Dear Engr. Tubola,

I hope this letter finds you well, I am writing to inform you about a webinar event that is organized by BSCPE 4-6 titled "Beyond Aesthetics. Designing for the Modern Web," which focuses on UI/UX Design and Web Development for Optimal Performance. This webinar event is a part of our Field Study and Seminars Subject and will be held on May 20, 2023, from 9:00 AM to 12:00 NN.

The purpose of this event is to give our classmates insightful information on the most recent developments in UI/UX design and web development. We have invited CpE alumni from the industry to speak as our guests so they can impart their knowledge and experiences.

It is crucial for every student in the class to participate to ensure the success of the event. And they are worrying about the post program agendas to be conducted and the possibility of being late and unprepared in your class. Therefore, I am kindly requesting your understanding and support in granting our class an excuse absence. And to compensate for the meeting for tomorrow, we may conduct a makeup class in the upcoming week.

We are looking forward to positive feedback from you. If you are interested in the event, I have already sent the concept paper, and do not hesitate to ask me if you have any more questions. Thank you!
